claytonschools.net

Due to the complete reconfiguration of the Missouri Public School Accounting System mandated by the Missouri Department of Elementary and Secondary Education (DESE) and implemented by the District as of July 1, 2018, it is extremely difficult to create an account-by-account analysis by function and object of the prior year expense accounts for the purposes of this document. Accounts have been separated by DESE into multiple accounts, combined with portions of other accounts, new accounts have been added and some accounts have been deleted. A single report comparing prior year's expenses will be reinstated when an account-to-account comparison is available.

BUDGET MESSAGE

As a community, the students, staff, parents and patrons of the School District of Clayton are united in our commitment to student learning. Our mission, vision and core values embody why we are here, what we want our students to become, and the principles that guide our work. The District's mission to inspire each student to love learning and embrace challenge within a rich and rigorous academic culture, and the vision to develop leaders who shape the world through independence, creativity and critical thinking set the standard for the education we provide.

During the 2018-2019 school year, the District began developing a new strategic plan with the end in mind: our students. We developed a Profile of a Clayton Graduate that includes competencies we want for every Clayton graduate.

During the 2019-2020 school year, we engaged the community to establish the direction of the District's new strategic plan, using the Profile as the foundation of our work. We envision a plan that will influence our approach to learning and challenge the mental models of what our schools look like for our students. We have established goal statements to guide our work:

- We will ensure each learner feels safe and valued.
- We will commit to the educational growth of our learners through an equitable, personalized and individualized learning experience.
- We will be dedicated to the personal growth of our learners in their social, emotional and physical well-being.

While our District's new strategic plan will serve as a guide for where we are going over the next three to five years, we will also be purposeful about being reflective and make adjustments along the way. We are taking an evergreen approach to our strategic plan. This means we will evaluate it more often and make changes as needed based on evidence we gather. We will have action steps that are aspirational, attainable, and aligned to our resources.

On April 2, 2019, the Board of Education (Board) asked the community to vote on Proposition E, an operating levy increase of 56 cents per \$100 of assessed valuation and an eight-cent waiver of Proposition C sales tax revenues. The voters approved the ballot measure with 64.2 percent of the votes. The net effect of both measures provided the District with an additional 64 cents of operating revenue, or approximately \$7.3 million. The additional revenue will maintain and strengthen the District's academic excellence and fiscal stability by eliminating the gap between revenues and expenses, addressing facility and maintenance needs and rebuilding reserves. The community's support of Proposition E will have a lasting impact on our schools and our students.

Proposition E was placed on the ballot because the District was prudently spending down operating reserves over several years. During this time, the District made reductions in expenditures with the goal of continuing to align District resources with our priorities but also protect what matters most: our instructional core. While we reduced our expenditures and made permanent changes to staffing and programs, we did it in a way that protected our instructional core and prioritized organizational and operational impacts in order to minimize the direct impact on our students and their learning. Due to the successful passing of Proposition E, the District projects approximately a \$2.8 million operating surplus and growing the fund balance of approximately 40 percent, which exceeds the 18 percent fund balance goal.

The District's instructional and departmental operating budgets were prepared through a Zero-Based Budgeting (ZBB) approach. This approach helps ensure that the budget is developed to align with priorities for instructional practices and organizational needs. The ZBB approach is built on needs and priorities rather than on historical spending trends. The ZBB process is about creating accountability for what the District spends and transparency of the decisions for where the District spends.

Proposed 2020-2021 total expenditures including normal debt service payments and business-type activities total \$67.2 million. Projected total revenues, inclusive of business-type and debt service, of \$69.5 million will result in a surplus \$2.3 million and grow the overall fund balance to \$33.3 million. Because many of the revenues and expenditures included in the total budget are restricted for specific purposes, the operating budget more clearly reflects the District's expected results of operations.

The operating revenue budget is projected to decrease by \$2.7 million or 4.25 percent to a total of \$60.0 million primarily due to fluctuations in protested and financial institution taxes. Protested assessed values continue to remain a challenge for all of St. Louis County taxing authorities. Numerous protested tax appeals crowd the State Tax Commissions dockets resulting in continuous fluctuations in assessed valuation data and tax payments that cause significant fluctuations in revenue trends. Further, other revenue categories such as non-resident tuition, tuition from other local education agencies (LEA's), and VICC are projected to decrease due to an increase in resident enrollment resulting in less available space. Projected revenues are based upon the best information available at this time as well as historical trends.

The operating expenditure budget is projected to increase by \$1.5 million or 2.64 percent to a total of \$57.3 million. The 2020-2021 school year is the second year of a two-year salary agreement. A 1.1 percent budgetary increase for certified teaching staff has been included in the current projections per the salary agreement. The average salary increase for a teacher is 2.41 percent due to staff turnover. Administrative salaries, classified salaries, part-time temporary employment and substitute budgets will be increased by 2 percent. In addition, the operating budget supports the maintenance of our facilities and grounds, recommended technology improvements, textbook, musical instrument and athletic uniform replacement, and curriculum implementation plans. Due to the successful passing of Proposition E, additional funding for facility and maintenance needs will be budgeted. Total proposed maintenance Capital Improvement Plan (CIP) expenditures for 2020-2021 will have an additional \$200,000 in funding for a total allocation of \$922,790. An additional \$595,000 of funding from Proposition E will also be used to pay the annual financing payments for improvements at the Center of Clayton.

In addition, funding for deferred capital requests will be discussed during the 2020-2021 school year. The proceeds from the sale of the Maryland building could be used to fund deferred capital requests. These funds are not part of operating funds and are not reflected in the operating budget. The Board has committed these funds for capital projects and must approve each expenditure from these funds. Capital requests in excess of this funding source could be financed over a period of 10 years.

The District will continue to work to control costs and align resources with priorities while also looking at other strategies to maintain financial balance with minimal impact on students and classrooms.

Operating revenues will exceed operating expenses, which will increase the operating fund balance by \$2.8 million. The 2020-2021 year-end operating fund balances inclusive of business-type activities are projected at \$27.5 million or 47 percent. However, \$4.5 million has been formally committed by the Board for future capital expenditures. This

leaves a net operating fund balance of \$23.0 million or 40 percent of budgeted operating expenditures which exceeds the Board's fund balance goal of 18 percent.

As part of the normal budgeting process, long-range projections are developed and continually updated. This process allows the District to determine how much of available resources can be used for ongoing projects, such as new programs or initiatives, versus one-time projects, such as facility repairs. Current long-range projections include new revenue from four developments where construction plans have been approved.

- Centene II – Phase I – 7600, 7606, 7620 Forsyth Boulevard; 14 South Hanley Road, Clayton – 40 percent tax abated property
- Centene University/Early Childhood Development Center – 7501 Maryland Avenue, Clayton
- Clarendale of Clayton – 7651 & 7601 Clayton Road, Clayton
- Forsyth Point – 8001, 8015, 8019, 8023, 8025, 802, and 8049 Forsyth Boulevard and 15 North Meramec, Clayton

There are several other potential new developments that are currently in the conceptual phase and have either not been submitted to the City for review or are waiting on approval. Estimated revenue from these developments will be included in projections when approved. This conservative and prudent approach to planning by Boards of Education has been a historical trademark of the District. Long-range financial planning will continue to be relied upon with administration prepared to react to unanticipated changes to planned revenue and expenses.

Preparation of the 2020-2021 budget began in December 2019. It is our deep commitment to all students' education that drives our thoughtful conversations and guides our budgetary decisions. Input was sought from staff, administrators and instructional leaders throughout the District. Specific information on developing the budget was discussed with the Board as study items on January 22 and May 13, 2020.

The 2020-2021 School District of Clayton budget is recommended to the Board of Education for adoption.

Respectfully submitted this day, June 24, 2020,

Sean N. Doherty, Ed.D
Superintendent

Mary Jo Gruber, CPA, CGMA, SFO
Chief Financial Officer

INTRODUCTORY SECTION

DISTRICT ENTITY

The District, established under the Statutes of the State of Missouri, is governed by an elected seven-member board as described in RSMo Chapter 162. The Board of Education (Board) is the basic level of government that has financial accountability and control over all activities related to public school education in the District. The District, just west of the City of St. Louis, covers approximately 3.25 square miles and is located in the City of Clayton and includes a portion of the City of Richmond Heights. Combining a bustling downtown with quiet, secure residential neighborhoods, Clayton is the hub of the St. Louis area and the seat of St. Louis County. With a population of around 18,700 residents, it is also home to Forbes and Fortune 500 company headquarters.

The District provides education for a stable enrollment of approximately 2,600 students in kindergarten (K) through 12th grade. The District's facilities include an early childhood center, three elementary school (K-5), one middle school (6-8), and one high school (9-12). In addition to these school buildings, the District owns and maintains a maintenance facility and administrative center.

GOVERNANCE

Board of Education

Mr. Joe Miller	President	Ms. Stacy Siwak	Director
Ms. Amy Rubin	Vice President	Ms. Kim Hurst	Director
Mr. Gary Pierson	Secretary	Mr. David Gulick	Director
Mr. Jason Wilson	Treasurer		

The School District of Clayton Board of Education has seven members; two elected annually for three-year terms, and three elected every third year for three-year terms. An annual school board election is held in April each year. School board members are volunteers that receive no compensation for serving on the Board.

The Role of the Board

The Board of Education is elected to represent the School District of Clayton community in the governance of its public schools. The Board's chief responsibility is to evaluate and hire the superintendent of schools. Additionally, the Board adopts policies and direct procedures for the governance of the District, with responsibility for implementing Board policy and day-to-day operations of the District delegated to the superintendent. The Board is also responsible for other fiduciary responsibilities as outlined in Board Policy DA including adopting an annual budget to enable the District to carry out its educational programs. All Board actions are governed by state and federal laws and Missouri Department of Elementary and Secondary Education (DESE) guidelines.

Decision Making

A minimum of four Board members must be present to conduct official Board business. Prior to each meeting, Board members receive relevant background information on each agenda item. They may contact the administration to clarify any item. The Board votes on each action item after Board discussion.

The superintendent is the chief executive officer of the District and is employed by the Board. The superintendent and, when appropriate, other members of the executive administrative team, meet with the Board to make recommendations and answer questions.

DISTRICT ORGANIZATIONAL CHART

Central Office Staff

DISTRICT MISSION AND GOALS

As a community, the students, staff, parents and patrons of the School District of Clayton are united in our commitment to student learning. Our mission, vision and core values embody why we are here, what we want our students to become and the principles that guide our work.

Mission Statement

We inspire each student to love learning and embrace challenge within a rich and rigorous academic culture.

Vision Statement

We develop leaders who shape the world through independence, creativity and critical thinking.

Core Values

We model and promote

- **excellence** by challenging our students and ourselves to meet the highest expectations of our community.
- **trust** by building relationships based on integrity, mutual respect and open communication.
- **inclusiveness** by valuing individual differences and the contributions of a diverse student body and staff.
- **innovation** by encouraging ideas and practices that foster adaptability.
- **accountability** by aligning our actions and resources with our stated objectives and taking responsibility for the outcomes.

To achieve this mission, Clayton maintains a student to teaching-staff-member ratio of about 14:1 at the elementary level, 12:1 at the middle school level and 12:1 at the high school level, which includes grade level/core and special area teachers. Individualized instruction is stressed at each grade level. The District employs 285 certified staff, including teachers, counselors and librarians.

Most classroom teachers have more than 17 years of experience and 94.6 percent hold a master's degree or higher. Their work is complemented by resource teachers, interns and general education staff. Each school has a library exceeding national standards and a full-time librarian. All schools also have at least one counselor, and basic instruction is augmented by regular instruction in art, music, physical education and technology.

Clayton students excel academically. At Clayton High School (CHS), 24 Advanced Placement courses are available. Students took 608 AP exams during the 2018-2019 school year, with 91 percent of students earning a passing grade of a 3, 4 or 5. In the same school year, 98.5 percent of CHS seniors graduated, and 92.0 percent of graduates advanced to two- and four-year colleges. The class of 2019 had a composite mean SAT critical reading and writing score of 670 and math score of 700. The average ACT composite score during the same time period was 26.0.

The District offers a full range of extracurricular activities and special programs. Before and after school care is available in each of the District's elementary schools. Activity programs, intramural sports and city-sponsored athletic leagues provide other afternoon, evening and weekend options.

Every year a large number of students are recognized as National Merit and Commended Scholars. Clayton's K-12 students compare favorably in ability and achievement with students from independent schools and select suburban districts nationally, including schools on the eastern seaboard and west coast.

Additionally, the District provides a wide range of opportunities for its residents and students, including adult continuing education programs and summer programs. Since 1981, the District has participated in a voluntary desegregation program with the City of St. Louis. Approximately 8 percent of the District's students are enrolled through participation in the desegregation program.

Strategic Planning

During the 2018-2019 school year, the District began developing a new strategic plan with the end in mind: our students. The District developed a Profile of a Clayton Graduate that includes the desired competencies for every Clayton graduate.

PROFILE OF THE CLAYTON GRADUATE

The Clayton Graduate is...

Self-Actualized

- engages in healthy practices and relationships to promote overall mental and physical well-being
- demonstrates belief in self and engages in self-improvement, advocacy and resilience
- lives life with authenticity, purpose and happiness

Intellectually Curious

- sees risks and mistakes as opportunities to fail forward
- asks questions that lead to effective problem-solving
- makes learning a constant

Culturally Competent

- embraces diversity of opinion and is aware of one's own world view
- demonstrates positive attitude and interactions toward cultural differences
- challenges prejudices, discovers commonalities and values differences

Empathetic

- demonstrates compassion and understanding of others
- demonstrates kindness and respect of others

A Creative Thinker

- designs and implements solutions to complex problems
- explores multiple possibilities and challenges the status quo
- expresses thoughts, ideas and emotions in varied ways – design, arts, writing and speaking

A Collaborator

- respects divergent thinking to engage others in meaningful discussion
- uses active listening strategies to advance understanding and values the contributions of others
- works to be an agent of change through strong communication skills

During the 2019-2020 school year, we engaged the community to establish the direction of the District's new strategic plan, using the Profile as the foundation of our work. We envision a plan that will influence our approach to learning and challenge the mental models of what our schools look like for our students. We have established goal statements to guide our work:

- We will ensure each learner feels safe and valued.
- We will commit to the educational growth of our learners through an equitable, personalized and individualized learning experience.
- We will be dedicated to the personal growth of our learners in their social, emotional and physical well-being.

While our District's new strategic plan will serve as a guide for where we are going over the next three to five years, we will also be purposeful about being reflective and make adjustments along the way. We are taking an evergreen approach to our strategic plan. This means we will evaluate it more often and make changes as needed based on evidence we gather. We will have action steps that are aspirational, attainable, and aligned to our resources.

TOTALS	2,619	2,651	285.20	67.9	9	13:1

ENROLLMENT

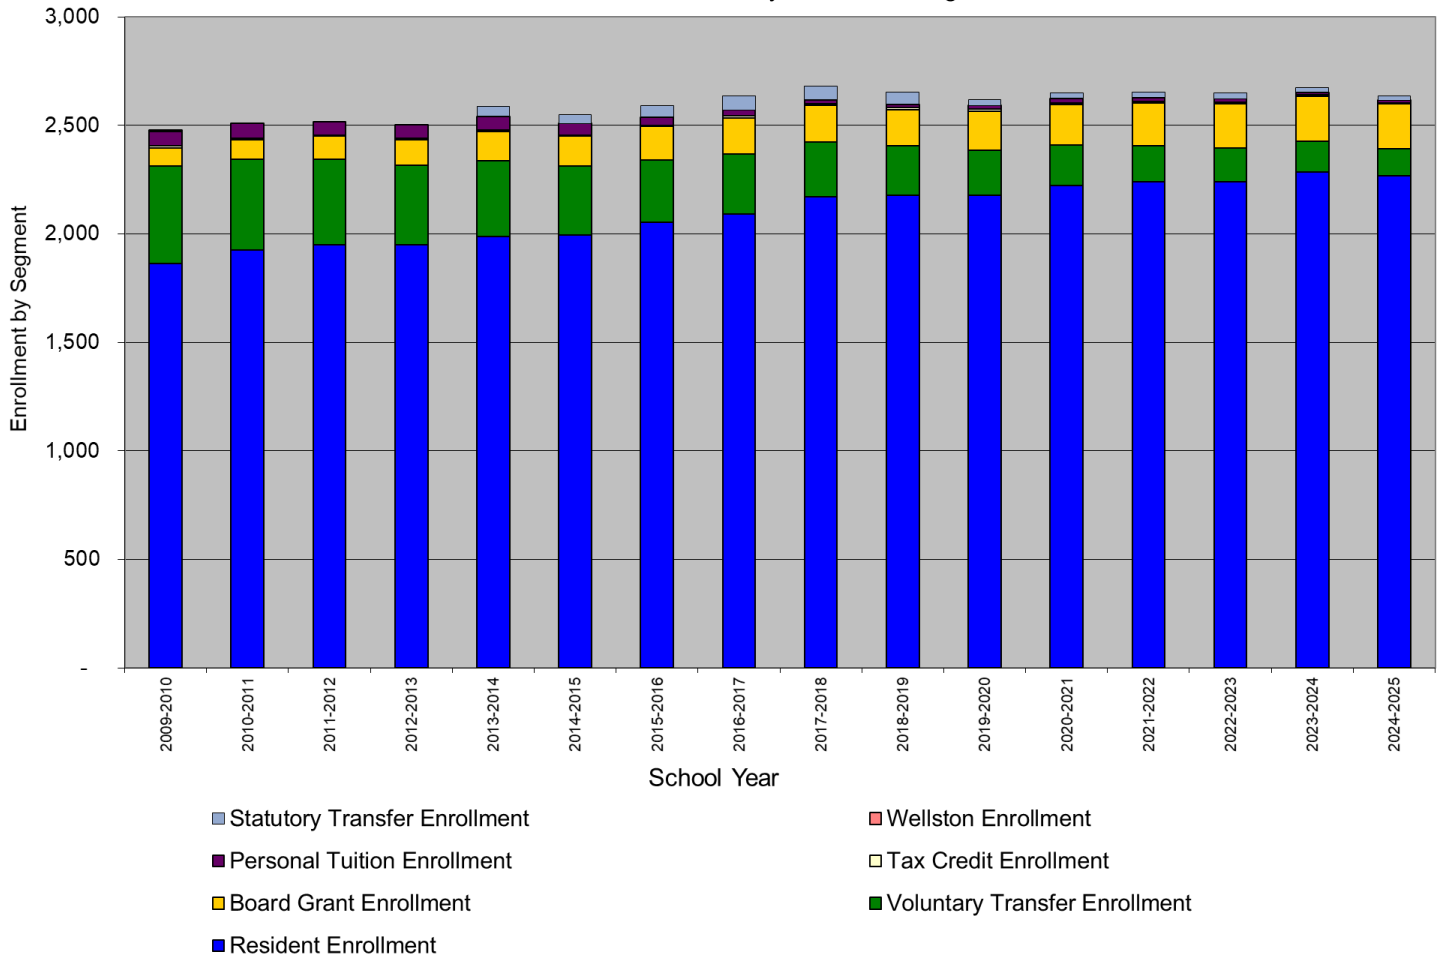

The total enrollment projection for the 2020-2021 school year is 2,651 students, which is a 1.2 percent increase when compared to the September 2019 count day enrollment of 2,619. Projections are beginning to trend at a flat overall enrollment. Total enrollment is stable primarily due to declining non-resident enrollment. District administration will continue to monitor both resident enrollment trends and the impact of the declining non-resident enrollment. Historical information for the past 10-years and five-years of projected enrollment is presented in the chart below.

School Year	Grades													Total	Enrollment Change
	K	1	2	3	4	5	6	7	8	9	10	11	12		
2009-2010	177	171	179	161	175	197	196	196	190	203	228	199	206	2478

Historical information provided by the district directly from the district's enrollment database
 Projected enrollment.

Enrollment projections are based on live-birth records and an analysis of historic enrollment information. Resident, board grant and Voluntary Transfer Student (VTS) attrition rates are calculated using the cohort survival ratio methodology over a five-year period. The cohort survival ratio is the rate of change when one group of students transitions from one given grade to the next. When calculating Kindergarten cohort survival ratios, a given Kindergarten class is compared against the number of live births that occurred in pertinent months five and six years prior to that Kindergarten class. All other enrollment segments are stepped forward according to grade progression. A graphical depiction of historical total enrollment by enrollment segment is provided on the next page.

Historic Total Enrollment by Enrollment Segment

District administration continues to monitor shifts in resident enrollment, current residential developments, as well as potential future developments. Administration also monitors class size standards and available classroom space in existing buildings to accommodate projected increases in resident enrollment. This information is used to determine available classroom space when accepting and placing nonresident students.

Resident Enrollment

Resident Projection

The total resident enrollment projection for the 2020-2021 school year is 2,222 students which is a 2 percent increase compared to the September 2019 count day resident total student enrollment of 2,179.

Students from New Residential Developments – The District has been tracking enrollment of students residing in residential high-rise or downtown Clayton apartments since 2012-2013. During the 2017-2018 school year, there was a spike in residential construction with 600 units and 42 townhomes constructed. Enrollment records indicate students residing in high-rise or downtown Clayton apartments is a transient population. Approximately two-thirds of students residing in these developments continue to reside in them after two years. The District enrolled 10 new students from these developments during the 2019-2020 school. A five-year history of students in these developments is included below. The District continues to closely monitor and annually evaluate the impact of these types of developments on its residential enrollment.

Address (Name of Development)	Year Built	Units	Condo/Rental	Advertised Avg. Monthly Rent 2 BD	Number of Unique Units	Enrolled Students

Non-Resident Enrollment

Board Grant – The District allows the children of employees to enroll as students in the District. This enrollment is projected to increase next school year to 186 students, which is a 3.3 percent increase when compared to the September 2019 count day total of 180.

Statutory Transfer Tuition Students – Pursuant to Missouri Revised Statutes Section 167.131, the District has enrolled students from unaccredited school districts in the same or adjoining county since the 2013-2014 school year. The Normandy School Collaborative gained provisional accreditation and the Board agreed to phase out students per an approved memorandum of understanding's (MOU) student transition plan. Statutory tuition enrollment is projected to be 27 students or a 3.6 percent decrease from 2019-2020 enrollment primarily due to normal grade progression under the MOU's transition terms.

Voluntary Transfer Student Program (VTS) – The Voluntary Transfer Student Program (VTS) is a program administered by the Voluntary Interdistrict Choice Corporation, a non-profit entity formed to collect and administer state funds to support the voluntary transfer students who choose to attend a district other than the student's district of residence (the City of St. Louis School District). The voluntary transfer enrollment is projected to fall to 187 students, which is an 8.8 percent decrease when compared to the September 2019 count day enrollment of 205 students.

Personal Tuition and Tax-Credit Tuition Students – According to RSMo 167.151 the School Board, in its discretion, may admit to the school pupils not entitled to free instruction and prescribe the tuition fee to be paid by them. Personal tuition and tax credit enrollment are projected to decrease one student due to graduation.

BUDGETS AND BUDGETARY ACCOUNTING

Budget Management

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- In accordance with RSMo Chapter 67 and Board Policy DB, the District adopts a budget for each fund.
- Prior to July, the Superintendent, who serves as the budget officer, submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated revenues and proposed expenditures for all District funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year.
- A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- Prior to July 1, the budget is legally enacted by a vote of the Board of Education.
- Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by a formal vote of the Board. For each fund, total fund expenditures may not legally exceed final amended budgeted expenditures. Expenditure appropriations lapse at the end of the fiscal year.
- Budgets are adopted on the cash basis of accounting for all governmental funds. The cash basis is used to enable the District to more accurately budget revenue and expenses as the resources are expended or received.

Budget Cycle

Teacher Salaries are negotiated in odd-numbered years beginning in January and receive Board approval by the end of March.

The health insurance plan year is a calendar year, not fiscal, and is negotiated in the summer months each year.

Budget Development Process

Zero-Based Budgeting – An Overview

Each year, the Superintendent and the Chief Financial Officer present a proposed budget to the Board of Education that includes estimates of the total expenditures required to operate the District. Before this can happen, staff across the District must work through a number of components to develop these cost estimates. This process requires active involvement from teachers, building leaders, coordinators and all support staff in setting the stage. District administrators are committed to fostering inclusive budget discussions centered on student achievement and the goals that are leading the Superintendent's work.

The District's instructional and departmental operating budgets were prepared through a Zero-Based Budgeting (ZBB) approach. This approach helps ensure that the budget is developed to align with priorities for instructional practices and organizational needs. The ZBB approach is built on needs and priorities rather than on historical spending trends. The ZBB process is about creating accountability for what the District spends and transparency of the decisions for where the District spends.

Building the Budget to Align with Budget Priorities

Since there is no wrong way to prepare a budget or a standard budget process for ZBB, each administrator built the process around the building's/department's culture to ensure what they do, who they do it for, why they do it and how well they do it are all maintained. By developing their own approach to this process, the building/department owns each decision provides input to each decision and is accountable for its results and how the results are defined.

Each administrative leader was tasked to identify the "Needs" of the building or department by using decision units. Needs are defined as resources required to provide only the most fundamental services essential to execute the written curriculum, ensure adequate support services and operate the building. A decision unit is a decision-making group of staff that can be comprised of representatives from grade levels, subject areas, programs and departments that develop and prioritize budget requests. The Need's recommendations are analytically reviewed by the Chief Financial Officer and significant fluctuations are discussed with the administrative leader who submitted the request.

Next, each administrative leader was tasked to identify "Wants" and "Enhancements" of the building or department again by using decision units. Wants are defined as resources essential to provide educational services, which expand the written curriculum and achieve the level of excellence provided by the District. Enhancements are defined as resources that will expand educational services and opportunities for students in alignment with the Strategic Plan. Each administrative leader was asked to work with their decision unit(s) to prioritize the list of Wants and Enhancements in order from most important to least important. The decision unit level prioritized Wants and Enhancements list, which are then discussed at a March District Leadership Council meeting and prioritized at a District-wide level.

Collaborating to Balance

A zero-based budget starts from a "zero base" and every function within an organization is analyzed for its needs and wants – all expenses must be justified. Budgets are then built for the upcoming year based upon these District-wide prioritized requests. The final ZBB budget is then balanced given funding constraints approved by the Board.

All members of the District Leadership Council share in the experience of analyzing budget trade-offs and making tough decisions between building and department requested wants and enhancements.

Stakeholder Involvement

Stakeholder feedback is essential to a transparent, forward-thinking budget. There are several tools the Board and administration use to communicate with the public.

- Committees – There are several committees in the District that help guide the direction of schools, curriculum and the budget.
- Public Survey – On a bi-annual basis, the District will conduct an outsourced public survey through a marketing research firm to provide an unbiased view of public opinion. This gives all residents a chance to have their voices heard.
- Social Media – The District maintains a Facebook page and Twitter feed to provide a two-way dialog with citizens. Several individual programs in the District also maintain an active and vibrant social media presence.

Budget Monitoring

Throughout the fiscal year, two-way communication is maintained between the Office of Business and Finance and the various budget administrators. Since events change throughout the year, budget administrators will periodically need to revise a budget item. What results is a “give and take” approach to the request for revisions in budget amounts. First, the administrator’s entire function is reviewed for areas that might have excess budget amounts. If it is determined that there are excess budget amounts, then a budget transfer is completed to move the excess budget amount needed to fill the request. If it is determined that the administrator’s function has no excess budget amount, then other functions are reviewed for excess budget amounts. Finally, if these reviews reveal no excess budget amounts, then a budget modification request is submitted to the Board for approval. A monthly is provided to the Board indicating actual performance compared to budget. In addition, the Director of Finance reviews actual performance compared to budget on a continuing basis. As the year progresses, this review increases in focus to the extent that over the last few months of the fiscal year the budget is reviewed on a line item by line item basis.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Accounting

Missouri law and Board Policy DI require that school districts account for their budget using fund accounting. All revenue received and expenditures made by the District are allocated to separate funds. Missouri law also requires that separate accounts are established for each fund and that expenditures from any fund may not exceed estimated expenditures for that fund for the fiscal year.

Governmental Funds

General Fund

The General Fund is the primary operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. This includes salaries and employee benefits for non-certificated personnel (such as office or maintenance personnel), District paid retirement contributions for all personnel, instructional materials, and school operational costs, such as utilities and facility repairs. All textbooks are purchased through this fund.

Special Revenue Fund

The Special Revenue Fund is used to account for specific revenue sources that are restricted or committed for the payment of salaries and certain employee benefits for certified personnel including teachers, counselors, librarians and certified administrators.

Debt Service Fund

Money in this fund is used for the retirement of bonds issued to finance school renovation or new construction. Bond issues must be approved by four-sevenths of the voters at primary or general elections, or by two-thirds of the citizens at all other elections. When the voters approve a bond issue, they authorize the Board to set a tax rate in the Debt Service Fund that will meet the principle and interest payments due each fiscal year.

Capital Projects Fund

Capital expenditures such as building renovation and construction, equipment, and furniture are paid from this Fund.

Proprietary Funds

Enterprise Fund (Business-Type Activities)

Enterprise funds are used to account for business-type activities financed primarily by user charges. This includes programs such as SummerQuest, Kids Zone, driver's education, and facility rentals.

Internal Service Fund

The internal service fund accounts for the activities of the District's medical self-insurance fund. This includes the collection of premiums from employees and the payment of claims, direct insurance payments and administrative fees.

The District's budgeted revenues, expenditures and fund balances as of June 30, 2021 are presented on the next page.

REVENUE

Sources of Revenue

Approximately 79 percent of the School District of Clayton’s operating tax revenue is derived from *local* taxes consisting of real estate and personal property taxes. An additional 4 percent of the District’s operating revenue comes from Proposition C funds and approximately 2 percent from voluntary transfer program funds. Lesser amounts of money are received from the *county* (<1 percent) and the *state* (3 percent), and the *federal* government contributes approximately 1 percent to the District’s operating budget.

5100 - Local Revenue

Current Taxes – Taxes on real and personal property within the District for the current year.

- *Real Estate.* Homes, office buildings, land.
- *Personal Property.* Automobiles, boats, commercial office furnishings, including business machines and leased equipment.

Property is placed on the County Assessor’s rolls at market rate. For taxing purposes, the assessed value of property is placed at a much lower rate. According to state law, residential property in St. Louis County is assessed at 19 percent of market value by the Assessor’s Office and commercial property is assessed at 32 percent of market value. Personal Property

is assessed at 33 percent of market value. An appeals process to the Board of Equalization may reduce assessments if it appears that the property value has been over-assessed.

Taxes are based upon the assessed valuation of the items listed above. The St. Louis County Assessor's Office determines the assessed valuation. Each \$100 of assessed valuation is multiplied by a school district's tax rate in order to determine the property taxes due each year. To illustrate: the District's blended tax rate for 2019-2020 is \$4.4992. If a taxpayer's property is worth \$800,000 and is assessed at 19 percent of fair market value, or \$152,000 for taxing purposes, the real estate tax dedicated to the school district is:

$$\$152,000 \div \$100 = \$1,520 \times \$4.4992 = \$6,839 \text{ tax}$$

A small portion of the tax collected is retained by the county collector's office to support its operation. Historically, each year a certain amount of taxes is uncollected. This is anticipated in projected local revenue calculations.

The tax rate, set each year in September, is levied on each \$100 of assessed valuation. To the extent that the District's assessed values, excluding increases from personal property and new construction, exceed the lesser of the Consumer Price Index (CPI) or 5 percent, the District is required, based upon calculations made in accordance with the rules and regulations of the State Auditor's office and the Hancock amendment, to adjust its operating tax levy from the prior year's rate. In a year when the assessed valuation declines, the District is allowed to roll up the operating tax levy. Additionally, the State Tax Commission has reduced the property tax valuations for various parcels for previous tax years. Protested assessed values continue to remain a challenge for all of St. Louis County. Outstanding protested tax appeals crowd the State Tax Commissions dockets resulting in continuous fluctuations in assessed valuation data and tax payments that cause significant fluctuations in revenue trends. These reductions in valuation resulted in a loss of tax revenue to the District. The law allows the District to recoup this loss over a three-year period. The District has recouped taxes due to reductions in assessed valuation of real property for most of the past 10 years.

In April 2019, the Clayton community had the opportunity to vote on Proposition E, an operating levy increase of 56 cents per \$100 of assessed valuation and an eight-cent waiver of Proposition C sales tax revenues. The net effect of both measures will provide the District with an additional 64 cents per \$100 of assessed valuation. The additional revenue will be used to maintain and strengthen the District's academic excellence and fiscal stability by eliminating the gap between revenues and expenses, addressing facility and maintenance needs and rebuilding reserves. Prop E required a simple majority vote (50 percent plus 1) and successfully passed with 64.2 percent of voters voting yes.

Because of the successful passing of Proposition E, the District now receives approximately 79 percent (6 percent higher than the historical 73 percent) of our funding from local property taxes. Because such a large percentage of our revenue is derived from local taxes, we are typically not as affected by fluctuations in State funding. New construction is our primary means to increase our tax revenue. Currently, there are four new developments that have been approved and construction has begun or has recently been completed. Only these four developments' estimated revenue from new construction has been included in the current projections.

- Centene II – Phase I – 7600, 7606, 7620 Forsyth Boulevard; 14 South Hanley Road, Clayton – 40 percent tax abated property
- Centene University/Early Childhood Development Center – 7501 Maryland Avenue, Clayton
- Clarendale of Clayton – 7651 & 7601 Clayton Road, Clayton
- Forsyth Point – 8001, 8015, 8019, 8023, 8025, 802, and 8049 Forsyth Boulevard and 15 North Meramec, Clayton

There are several other potential new developments that are currently in the conceptual phase and have either not been submitted to the City of Clayton or the City of Richmond Heights for review or are waiting on approval.

Delinquent Taxes – this revenue is derived from the collection of delinquent taxes from prior years'. This can also result in negative income due to the payback of settled protested property taxes in favor of the property owner.

Proposition C – Considered a local source, Proposition C is a one-cent sales tax for education approved by voters in 1982 and distributed to school districts on a per-pupil basis. Under its provisions, one-half of the money received by a local district is used to roll back local property taxes. The other half is used for instruction: 75 percent for teachers' salaries, the remaining 25 percent for other district operating expenses. Through a special ballot issue, voters may approve removal of the rollback provision. The successful passing of Proposition E in April 2019 waived the provision to rollback local property taxes. As a result, the District now receives 100 percent of this funding source instead of 50 percent prior to the waiver.

The amount of money distributed by the state is dependent upon the state's economy. Therefore, the amount to be received by all of the school districts in the state is determined annually.

Merchants and Manufacturers – A flat surcharge tax rate per \$100 of assessed valuation of real property is collected from all St. Louis County Merchants and Manufacturers and distributed by the St. Louis County Collector to county school districts.

Voluntary Transfer Student Program (VTS) – Another significant amount of revenue the District receives from local sources is for the support of students attending the District as part of VTS administered by the Voluntary Interdistrict Choice Council (VICC). Revenues are distributed from a fund established as a result of a Settlement Agreement. Funds are received based on the number of students participating in our District through a predetermined cost of educating a student. In 2020-2021, the District will receive \$7,000 per participant's average daily attendance. This amount is expected to remain at this level for future years. Local taxes are not collected to support this program

Statutory Tuition Students – Pursuant to Missouri Revised Statutes Section 167.131, the District has enrolled students from unaccredited school districts in the same or adjoining county since the 2013-2014 school year. By statute, the rate of tuition to be charged by the district attended and paid by the unaccredited district is the per-pupil cost of maintaining the district's grade level grouping at the school attended. During the 2017-2018 school year, the Normandy School Collaborative gained provisional accreditation and the Board entered into a separate MOU to reduce their tuition to \$7,000 per pupil beginning in January 2018. Projections phase out students per the MOU's student transition plan at \$7,000 per pupil. This represents a projection of approximately \$95,550 in tuition revenue for 2020-2021 from other local education agencies.

Personal Tuition Students – According to RSMo 167.151 (1) the School Board, in its discretion, may admit to the school pupils not entitled to free instruction and prescribe the tuition fee to be paid by them. The introduction of a personal tuition program for non-resident students in 2004-2005 caused the Board to evaluate the tuition rates and set rates at levels deemed to be "market competitive." Historically, the recommended elementary and secondary rates have been set strictly by considering the Consumer Price Index, the increase to the District's overall budget, and the rates of other private schools in the county. Tuition rates for 2020-2021 are \$17,275 for elementary and \$23,050 for secondary. Revenue is projected at \$242,000.

Tax-Credit Tuition Students - According to RSMo 167.151 (3), any person who owns property in the District but resides outside the District are entitled to be enrolled as a resident student but must pay the tuition rate set for Personal Tuition students reduced by the amount of school real estate taxes that they pay to St. Louis County. Revenue is projected at \$160,130.

Interest – Interest revenues are from earnings on all temporary deposits and investments plus interest received on taxes. State statute allows the school board in the district to invest the funds in either open time deposits or certificates of deposit secured under the provisions of RSMo 110.010 and 110.020, or in bonds, redeemable at maturity at par, of the state of Missouri, of the United States, or of any wholly-owned corporation of the United States; or in other short term obligations of the United States, or in any instrument permitted by law for the investment of state moneys. As fund balances increase or decrease over time and as interest rates change, these revenues will fluctuate.

5200 - County Revenue

Fines & Escheats – Revenue from fines, foreclosures, or unclaimed taxes.

State-Assessed Utilities – Levy revenue on the assessed valuation of railroad and utility properties as assessed by the state.

5300 - State Revenue

Basic Formula – The State School Foundation Program provides more than 40 percent of the operating budgets in most of the school districts in the state but provides less than 3 percent of the District’s budget. The foundation program’s goal is to provide revenue to school districts whose tax base of assessed value is inadequate to fund their expenditures and to achieve greater equity in per-pupil expenditures among districts. State Foundation money is granted in larger amounts to districts with low local revenues per pupil (and therefore lower assessed valuation per student).

The District, along with other communities that have high assessed valuations per student, has been “grandfathered” under this program. This means that the District receives a “minimum guaranteed” amount of revenue per student rather than a larger amount determined by a state formula. Through the Foundation Formula, the District currently receives approximately \$514 per weighted average daily attendance (WADA). Because local revenues from real estate taxes and personal property taxes are relatively larger than in other districts, the District’s ability to more fully finance its own schools is considered in the formula, which causes the District to be “grandfathered” at a relatively small amount.

Classroom Trust Fund - These revenues are generated from casinos and are part of the Foundation Formula as described above. The Classroom Trust Fund portion of the formula is deducted “off the top” and may be spent for any expenditure at the discretion of the Board. This represents approximately \$386 per weighted average daily attendance (WADA) of the total \$514 of Foundation Formula.

Parents as Teachers (PAT) – Revenue received for early childhood screening.

5400 - Federal Revenue

School Lunch Program – Revenue received directly through DESE for the National School Lunch Program.

School Breakfast Program – Revenue received directly through DESE for the National School Breakfast Program.

Title I – Revenue received to help educationally disadvantaged students meet high academic standards. These revenues are appropriated from the U.S. Congress for Elementary and Secondary Education Amendments of 1965 for special programs. A portion of the VTS revenue is received through the Federal Title I program as a pass through.

Interest Subsidy – The majority of federal revenue is derived from subsidized interest on tax credit bonds issued through the American Recovery and Reinvestment Act of 2009.

Estimating Revenue

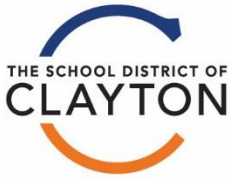

How much revenue is likely to be generated from local, county, state, and federal sources? As indicated earlier, 79 percent of the District’s revenue is collected through local property taxes. Therefore, in preparing the District budget, careful estimates of *local tax revenue* must be made.

As the Board works on a budget for the *following* school year, its estimates of revenue are based upon the actual amount of assessed valuation upon which taxes were paid for December 31st of the *preceding year* (e.g. December 31, 2019 figures are used for the 2020-2021 budget). These figures are received from the County Assessor’s Office and are utilized by District administrators as information becomes available. Estimated increases or decreases in the current year’s assessed valuation are based upon such facts as protested properties, the number of local building permits issued or the projected completion dates of new commercial buildings.

Although December 31st figures are used as basic data in estimating the District’s annual revenue, the District’s budget is based upon the *June 30* assessed valuation. This poses difficulties for several reasons:

- (1) June 30 assessed valuation figures are not received until *September 15*, by which time major budget decisions for the following year have already been made by the Board. For example, teachers’ contracts are issued in May as required by state law.
- (2) The June 30 figures are usually not completely accurate because they reflect assessed valuation amounts that may be challenged by property owners and later adjusted by the Board of Equalization. Further, these figures cannot predict delinquent tax payments or property that will be removed from the tax rolls for various reasons. For example, an old building may be torn down to make way for a new structure. The old building is removed from the tax rolls, but the new building is not normally added until its completion.
- (3) Other factors that significantly challenge the ability to accurately project revenues are property tax abatement programs including Chapter 100, Chapter 353 or Tax Increments Finance Districts (TIFs), new construction estimates, and inflation.

Property tax abatements may be granted through special state laws that allow for the development or redevelopment of an otherwise undevelopable property. Recent history has allowed this funding mechanism to relieve developers of infrastructure costs of developing properties such as shopping malls and office buildings, as well as residential developments. If a property is abated, the value of the property is fixed at that time. Any revenues generated from the increased property value due to the new development are used to pay off a part of the debt issued to build the project. Once the abatement expires, the revenues then go to the school district. Terms of abatements vary anywhere from 20 to 23 years. Predicting the nature and timing of new construction coming in to the tax rolls is also difficult. Delays in construction schedules, the timing of occupancy, and

determination of the exact value all are constraints to consider. For these reasons, many adjustments must be considered in projecting local tax revenues.

Estimates of revenue from other sources must also be made. Some local revenue is fairly predictable, such as rental fees paid by outside agencies for the use of District facilities. Less predictable are the revenues derived from Proposition C State sales tax.

Thus, in creating a budget for the following year, the Board must estimate expenditures and necessary revenues for each of the required funds; general, special revenue, capital and debt. It must also plan for contingencies. A real challenge in planning District expenditures 12 months in advance is projecting what the District's revenue will be.

Establishing a Tax Rate

By September 30th each year, the Board must establish a tax rate within a framework of state law and Board Policies DEA and DC-1. The Board may set an operating tax levy (a levy excluding the Debt Service Fund) to provide revenue to each fund. An operating tax levy beyond the authorized ceiling requires a majority vote on a tax levy ballot issue. The Board may reduce the tax rate without voter approval.

School districts may revise the tax rate ceiling to compensate for reductions in assessed value that occurred after the prior year levy had been calculated. One reason this can occur is as a result of general reassessment. Because of this reason, the Board waits to establish the annual levy until the County Board of Equalization completes its work and the St. Louis County Assessor produces assessed valuation figures that include adjustments.

Another reason school districts may revise the tax rate ceiling to compensate for reductions in assessed value is because of decisions made by the local Board of Equalization or the State Tax Commission. The District may be permitted to levy an additional tax for up to three years to recoup the revenues it was entitled to receive for the preceding one to three year period affected by the decisions.

Debt Service	\$9,238,630	\$8,371,730	(\$866,900)
Total	\$72,877,080	\$69,537,300	(\$3,339,780)

The decrease is due to several factors. In 2019-2020 the District was able to recoup the payback of approximately \$1.2 million of protested taxes from the prior year. Additionally, there have been no settlements of major protests during 2019-2020 resulting in an additional \$600,000 of tax revenue that is not projected for 2020-2021. This will result in no recoupment of protested taxes. Further, financial institution taxes (FIT) were \$1.0 million higher in 2019-2020 than 2018-2019. Projections do not include this level of FIT revenue. Finally, 2019-2020 included a \$1.2 million donation from the Clayton Education Foundation for the construction of Adzick Field. All other categories of revenue have minimal increases or decreases that do not have an impact on the overall budget as can be seen on the following page.

2020-2021 Operating Revenue Budget by Object

	2019-2020 Revised Budget	2020-2021 Proposed Revenue	Variance \$	Variance %
Property Taxes	\$48,823,800	\$47,333,010	(\$1,490,790)	-3.05%
Tuition – Personal	\$400,150	\$402,130	\$1,980	0.49%
Tuition – Other Districts	\$140,140	\$95,550	(\$44,590)	-31.82%
VICC	\$1,344,350	\$1,227,140	(\$117,210)	-8.72%
County	\$428,730	\$402,070	(\$26,660)	-6.22%
State	\$1,676,050	\$1,792,470	\$116,420	6.95%
Federal	\$560,800	\$449,050	(\$111,750)	-19.93%
Other	\$9,325,170	\$8,333,900	(\$991,270)	-10.63%
Total Operating	\$62,699,190	\$60,035,320	(\$2,663,870)	-4.25%

As previously stated, the primary change in operating revenue is due to the fluctuation of protested taxes. Reduction of Other is primarily due to the loss of financial institution taxes.

EXPENDITURES

Expenditures by Function

The expenditure function code describes the action, purpose, or program for which activities are performed. DESE requires the District to report by functions based on five main categories: Instruction, Support Services, Community Services, Facilities Acquisition and Construction, and Debt. These functions are further classified into sub-functions based on schools, programs, services, and areas of responsibilities.

1000-1999 Instruction – Activities dealing directly with the teaching of pupils, or the interaction between teachers and pupils. Teaching may be provided for pupils in a school classroom, in another location such as a home or hospital, or in another learning situation. Activities of aides or assistants are included in this function when they assist in the instructional process.

2000-2999 Support Services – Services that provide administrative, guidance, health, and logistical support to facilitate and enhance instruction. Supporting services exist as adjuncts for the fulfillment of the objectives of instruction.

3000-3999 Community Services – Activities that do not directly relate to providing education of pupils in the District. These include services provided by the District for the whole or segments of the community.

4000-4999 Facilities Acquisition and Construction Services – Activities concerned with the acquisition of land and buildings, remodeling buildings, the construction of buildings, additions to buildings, the initial installation of service systems, the extension of service systems, and any other project meant to improve a site.

5000-5999 Short and Long-Term Debt – Activities servicing the debt of the District.

Expenditures by Object

The expenditure object code identifies the service or commodity obtained. The major expenditures by object categories are:

6100-6199 Salaries – Amounts paid to employees of the District who are considered to be in a position of permanent or temporary employment, including personnel substituting for those in permanent positions. This includes gross salary for services rendered while on the payroll of the District.

6200-6200 Benefits – Amounts paid by the District for benefits on behalf of the employee. These amounts are not included in the gross salary. Such expenditures include fringe benefits. While these payments are not paid directly to the employee, they are considered part of the cost of employment.

6300-6399 Purchased Services – Amounts paid for services rendered by personnel who are not on the payroll of the District and for other services which the District may purchase. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided.

6400-6499 Supplies – Amounts paid for material items of an expendable nature that are consumed, deteriorate in use, or lose separate identity through fabrication or incorporation into different or more complex units or substances.

6500-6599 Capital Outlay – Expenditures for the acquisition of fixed assets or additions to fixed assets. Examples include expenditures for land or existing buildings, improvements of grounds, construction of buildings, additions to buildings, remodeling of buildings, and equipment.

6600-6699 Short and Long-Term Debt – Expenditures for the retirement of debt, the payment of interest on debt, and the payment fees.

2020-2021 Total Expenditures by Fund

General Fund
\$21,444,620
32%

Special Revenue Fund
\$34,508,460
52%

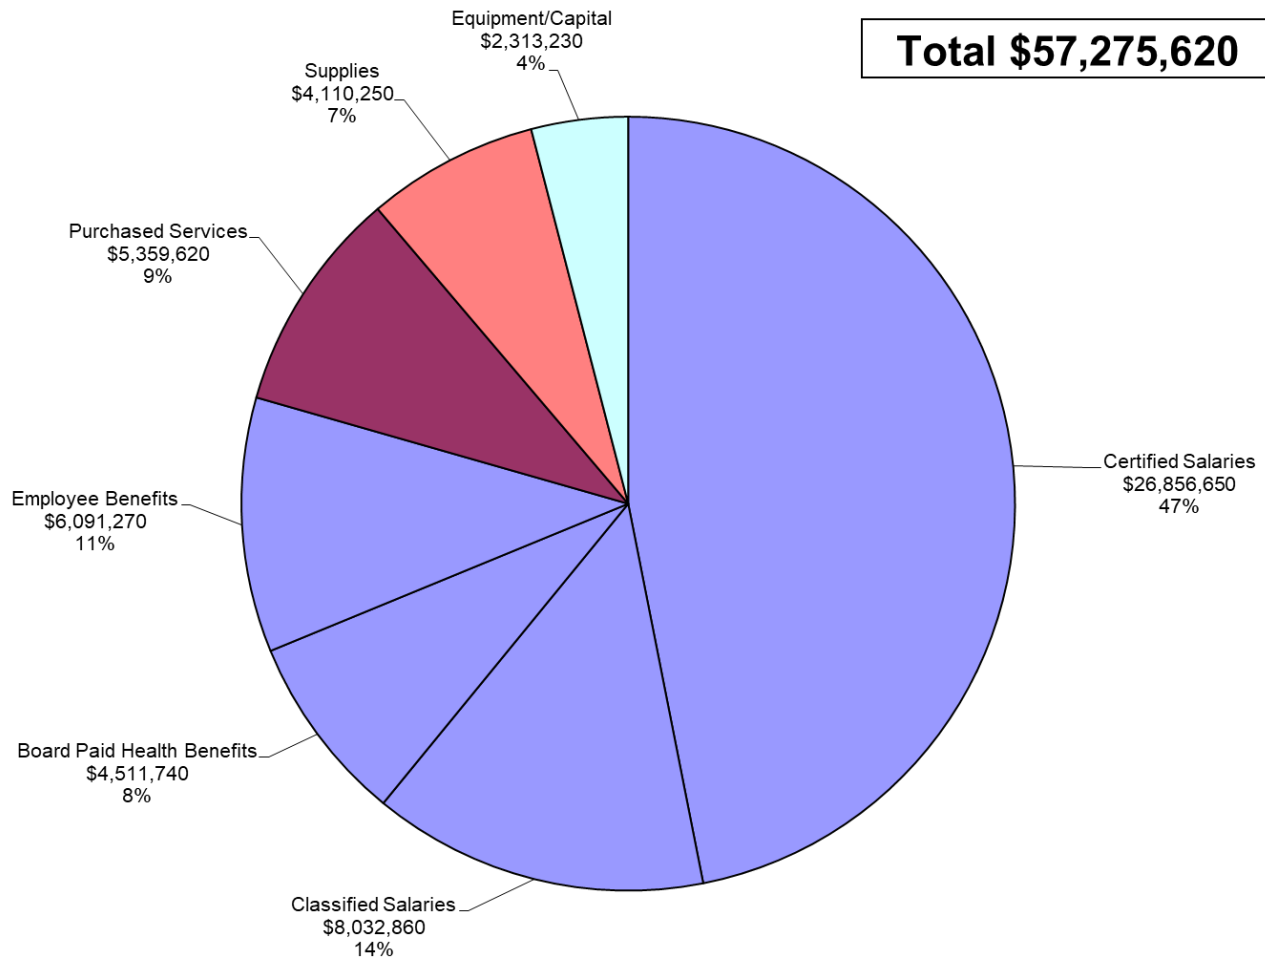

Capital Projects Fund
\$2,313,230
3%

Debt Service Fund
\$8,977,790
13%

Fund	2019-2020 Original Budget	2020-2021 Proposed Expenses	Variance
General	\$20,937,820	\$21,444,620	\$506,800
Special Revenue	\$33,679,700	\$34,508,460	\$828,760
Capital Projects	\$2,154,820	\$2,313,230	\$158,410
Debt Service	\$7,829,650	\$8,977,790	\$1,148,140
Total	\$64,601,990	\$67,244,100	\$2,642,110

The increase in General and Special Revenue funds is due to salary (1 percent budgetary impact for certified and 2 percent for classified) and benefit (9 percent) increases (see **Salary and Benefit** section), as well as additional staffing at the High School to accommodate a large freshman class. The increase in Capital Projects funds is due to the successful passing of Proposition E, which allows for an additional \$150,000 toward capital projects (see **Capital Expenditures** section). The increase in Debt Service fund is due to debt refinancing (see **Debt Service** section).

2020-2021 Operating Expenditure Budget by Object

	2019-2020 <u>Budget</u>	2020-2021 <u>Proposed Exp</u>	Variance <u>\$</u>	Variance <u>%</u>
Certified Salaries	\$26,379,910	\$26,856,650	\$476,740	1.81%
Classified Salaries	\$7,849,640	\$8,032,860	\$183,220	2.33%
Board Paid Health Benefits	\$4,169,190	\$4,511,740	\$342,550	8.22%
Employee Benefits	\$5,928,880	\$6,091,270	\$162,390	2.74%
Purchased Services	\$4,932,800	\$5,359,620	\$426,820	8.65%
Supplies	\$4,352,180	\$4,110,250	(\$241,930)	-5.56%
Equipment/Capital	\$2,153,320	\$2,313,230	\$159,910	6.91%
Total Operating	\$55,765,920	\$57,275,620	\$1,509,700	2.64%

Explanations of the fluctuations in the various categories are described in more detail on the following pages.

Staffing

The vision for staffing in the School District of Clayton as framed by the District's mission, vision and core values is to have the best teacher possible in every classroom and the best staff member possible in every non-teaching position. With this purpose in mind, elements critical to staffing recommendations for budget development include:

- Enrollment
- Class Size Policy
- District's Curricular and Program Expectations
- Missouri School Improvement Program Standards
- Fund Balance Guidelines

Administrators discuss staffing on an ongoing basis and make recommendations that keep the district within fund balance goals. Staffing may be adjusted at any time between the presentation of the budget and the start of the school year based upon a periodic review of the enrollment/registration process or program enrollments at the secondary level. The staffing contingency budget may be used when actual enrollment exceeds projected enrollment. Before a recommendation to replace current staffing or a recommendation for contingency staffing, administrators will make every effort to accommodate any unforeseen need with existing resources. An annual contingency account equivalent to one teacher at the average teacher compensation is maintained to offset fluctuations due to differences between projected enrollment and actual enrollment.

Salary and Benefits

Certified Staff – The District is very fortunate to have the most experienced and highly educated teaching staff in the area. During 2018-2019, our average teacher had 17.5 years of experience with 94.6 percent holding a Master's Degree or higher. The Missouri average for that year was 12.5 years of experience with 58.9 percent holding Masters Degrees or higher.

2019-2020 was the first year of a two-year salary agreement. For the 2020-2021 budget, a 1.1 percent overall budget impact has been included in the current projections as per the salary agreement. The average salary increase for a teacher is 2.41 percent due to staff turnover. Administrative salaries, part-time temporary employment and substitute budgets were all increased at 2 percent. Administration is currently reviewing certified staffing needs for the 2019-2020 school year.

Non-Certified Staff – Non-certified staff include the following categories of support staff: nurses, office personnel, maintenance personnel, before and after school personnel, personnel at the Family Center, and miscellaneous part-time non-teaching positions. A 2 percent budgetary increase for non-certified staff has been included in the current budget and projections.

Employee Benefits – Employee benefits include medical, dental, vision, long-term disability, and life insurance. Also included in this category is the Employee Assistance Program. The employee benefit plans are administered on a calendar year basis. During 2017 the District experienced significant medical claims that exceeded premiums by almost 30 percent. As a result, the District elected to move to a self-funded medical insurance plan to minimize the rate increase for 2018 to 16 percent. Because of the trend in industry premiums for the past two years, the increase received through the negotiation process and fees that continue to be passed along due to Health Care Reform, it is reasonable to continue to anticipate a sizeable increase for future years. Claims data will be monitored closely. Based on market and historical data, a 9 percent increase is reasonable for the preliminary 2020-2021 budget projections.

Administration will continue to work with a representative group of staff to identify ways to adjust the plan design, negotiate discounts, and incorporate wellness activities such as free membership and low-cost fitness classes for staff through the Center of Clayton that will maintain a competitive benefits package.

Retirement Contributions - Retirement contributions for PSRS members and employer matching have been approved by the retirement system at the same percentage as 2019-2020 which is 14.50 percent of retirement compensation. Retirement contributions for PEERS members and employer matching have also been approved by the retirement system at the same percentage as 2019-2020 which is 6.86 percent of retirement compensation. Retirement compensation includes salary, extra pay, and medical, dental, and vision insurance contributions. PSRS participants are not eligible for social security benefits and neither the District nor the participants contribute to social security on their behalf. PEERS participants and the District both contribute to social security and participants are eligible for full benefits.

School Building and Department Budgets

For 2020-2021, school building and department budgets will be established through the ZBB approach as previously described. This represents approximately \$5.0 million of the overall operating budget. All members of the District Leadership Council will share in the experience of analyzing budget trade-offs and making tough decisions between building and department requested wants and enhancements. This overall budget area is budgeted with a 2 percent increase. However, through the ZBB approach, District leaders will ensure the District's resources are allocated to programs that support its mission, vision and core values as well as to secure the District's ability to continue to provide our students with a rich and rigorous educational experience.

Capital Expenditures

The District defines capital expenditures and projects as follows:

- **Capital Expenditures** – Any purchase of furniture, equipment, vehicles, or permanent improvement having per unit cost of \$1,000 or more and useful life of more than one year is classified as a capital asset. Purchases of \$3,500 or more will be competitively bid, and sealed bids will be required for purchases that may exceed \$15,000 as stated in District Policy DJF -2 – Purchasing.
- **Capital Project** – An activity that does not occur routinely or annually, has a scheduled and definitive beginning and ending, and results in a capital improvement or acquisition. Funding for this activity is from local revenue sources.
- **Capital Projects Bond Program** – Major technology infrastructure and facility needs such as new construction, or upgrading existing facilities are funded through the sale of bonds. As part of a bond elections process, the District develops a framework of the projects to be addressed. These projects are determined through internal staff analysis and input from the community. Once the projects are identified, specific project budgets are established on a project basis.

Facility Services – The Director of Facility Services and key stakeholders work to develop a five-year capital projects budget each January and February. General building maintenance needs are considered as well as educational needs. The needs throughout the District are analyzed and prioritized. This list is continuously updated as the needs of the District and its students change. Each spring the District asks the Board to approve the top priority projects that fit within budget parameters that need to be completed at that time. As a result, many projects get deferred over a period of years. Some of these projects include:

- Safety and security improvements at every school.
- Infrastructure improvements that were identified in the District's Facilities Master Plan but were not pressing enough to be included as part of the 2009 bond issue.
- Updates to learning spaces/libraries to meet the evolving needs of today's learners.

Due to the successful passing of Proposition E, proposed maintenance Capital Improvement Plan (CIP) expenditures for 2020-2021 will have an additional \$200,000 in funding for a total allocation of \$922,790. An additional \$595,000 of funding from Proposition E will also be used to pay the annual financing payments for improvements at the Center of Clayton. A contingency fund of \$50,000 will be maintained to deal with unanticipated maintenance needs and emergency repairs. Many Facility Service projects are completed during the summer months and therefore projects that are not completed prior to the end of the fiscal year will continue to be carried over into the following year's budget.

In addition, funding for deferred capital requests listed above will be discussed during the 2020-2021 school year. The proceeds from the sale of the Maryland building could be used to fund deferred capital request. These funds are not part of operating funds and are not reflected in the operating budget. The Board has committed these funds for capital projects and must approve each expenditure from these funds. Capital requests in excess of this funding source could be financed over a period of 10 years.

Technology – The District finalized its “technology toolbox” and recommendations were approved by the Board on January 25, 2017. The recommendations include additional support for technology beyond previous allocations. As a result, the Technology Improvement Plan (TIP) was increased from \$500,000 to \$600,000 in 2017-2018 with a 2 percent inflationary increase over the next two years. Due to a delay in presenting an update on the TIP during the 2019-2020 school year, a 2 percent inflationary increase will be applied to provide a funding level of \$636,240. The Board will receive an update on the approved TIP during 2020-2021. Further, a \$10,000 contingency is recommended to handle unanticipated needs.

The primary purpose of TIP funds is to maintain a replacement cycle for computers, tablets, Chromebooks and servers. Because many of Technology's projects are completed during the summer months, projects that are not completed prior to the end of the fiscal year will continue to be carried into the next fiscal year.

Clayton Recreation Sports and Wellness Commission

The Clayton Recreation, Sports and Wellness Commission, Inc. (CRSWC) is a not-for-profit organization, which provides a shared use facility called the Center of Clayton (Center) to address the athletic and educational needs of the District and the community. The goal of the Center is to cover operating costs; however, feasibility studies conducted prior to the opening of the Center recommended establishing a funding mechanism for capital and equipment replacement costs. These expenditures had not been factored into the original projections and unexpected capital costs would be difficult if not impossible for the Center's budget to fund. Historically, expenditures in the capital and equipment replacement fund have been provided through a total annual capital contribution of \$100,000 to \$200,000 by each parent organization (the City of Clayton and the District).

The Center is projecting parent contributions for FY 2020 to remain at \$200,000 for each entity of which would be primarily for capital and equipment replacement. The Center consistently reviews staffing and revenue projections to minimize operational losses. Although, if the Center experiences an operating loss, additional financial support from each parent organization would be necessary. Based on preliminary projections prepared by the Center's staff, an operating loss is anticipated for the end of the fiscal year. The District will be required to fund half of this loss. Projections include funding to the CRSWC only at the \$200,000 level. Adjustments to the budget will be made when more information becomes available.

It is also recommended that the Board continues to commit to placing a reserve of \$100,000 a year to cover the costs of potential major capital repairs to the building and grounds. The Board approved the release of \$380,000 during 2019-2020: \$300,000 was for construction of a new parking lot on property the City donated to the CRSWC and \$80,000 was for a powerlifting room at the Center dedicated to District students. After both of these projects are completed, the reserve is estimated to have \$220,000 remaining and will be replenished at an amount up to \$100,000 annually until accumulated up to \$500,000. The funds are recorded as committed on the balance sheet for the governmental fund financial statements as well as not included in fund balance projections.

Family Center

The Family Center budget has historically been developed through a ZBB approach. Funding is allocated based on operational needs. District administration will continue to review the Family Center's fee structure to ensure tuition maintains competitiveness with market programs and covers the historical percentage of operating costs. Historic funding levels and District support are provided in the following chart and gap analysis:

	2014-2015	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020*	2020-2021*
Program Revenues	\$795,967	\$769,746	\$743,045	\$813,688	\$785,931	\$800,000	\$805,000
Operational Costs	\$458,376	\$399,302	\$406,795	\$441,623	\$503,148	\$559,690	\$466,070
Program Costs	\$725,237	\$744,649	\$762,832	\$799,383	\$812,431	\$878,930	\$893,560
Total Expenses	\$1,183,613	\$1,143,951	\$1,169,627	\$1,241,006	\$1,315,579	\$1,438,620	\$1,359,630
District Support \$	\$387,646	\$374,205	\$426,582	\$427,318	\$529,648	\$638,620	\$554,630

*Budgeted

Support of Family Center Expenditures

Parents as Teachers

State funding for the Parents as Teachers (PAT) program has been reduced significantly in recent years. The \$41,190 funding level projected for 2020-2021 is approximately \$65,000 lower than the historic high of \$106,854 received during the 2007-2008 school year. Historic funding levels and District support are:

	2014-2015	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020*	2020-2021*
State Funding	\$60,237	\$61,800	\$63,820	\$64,191	\$54,190	\$60,000	\$41,190
District Support	\$35,290	\$27,264	\$26,284	\$23,053	\$26,038	\$41,150	\$56,480
Total Cost of Program	\$95,527	\$89,064	\$90,104	\$87,245	\$80,228	\$101,150	\$97,670
Children Served	321	313	305	287	241	N/A	N/A
Families Served	206	211	211	198	166	N/A	N/A

*Budgeted

Early Childhood Special Education

The Early Childhood Special Education (ECSE) program, including all staffing, is funded through a pass-through grant from DESE. ECSE is approximately 80 percent state funded and 20 percent federally funded. Over the past several years, DESE has advised the District that the ECSE funding exceeds DESE guidelines. In 2013, DESE stated that it would only fund the ECSE grant for less than half of the submitted full-time equivalencies (FTE). The District successfully appealed DESE’s decision. (Note: The grant approval takes place in arrears only after the funding has been provided the year prior.). While DESE approved the 2013 grant at the higher FTE level, it advised that it would no longer provide staffing levels as requested by the District. The District, with the assistance of an outside consultant and state officials with the ECSE program, completed a study of its ECSE program to determine appropriate staffing levels for the future. It was determined that projected staffing levels needed to serve students in the ECSE program at the Family Center were acceptable and it is anticipated that ECSE staffing should be covered by the DESE grant and District support should not be necessary. During the review of both the 2015-2016 and 2016-2017 final expenditure reports, DESE determined staffing levels were again too high and despite appeals by District administration, grant funding was reduced at a cost to the District of approximately \$18,000 and \$46,600 respectively. District staff will continue to monitor staffing levels and be proactive with working with state officials with the ECSE program to ensure staffing is maintained at the proper levels.

Summer Programs

It is recommended that the District maintain an overall investment in summer programs of \$250,000. Academic summer programs will be budgeted at a total cost of \$250,000 and recreation summer programs as fee-based revenue/expense neutral but operate with the intent to generate revenues where possible.

Debt Service

As of June 30, 2019, the District has bonds outstanding of approximately \$69.1 million. In 2020-2021, the District will pay \$8.97 million in principal and interest payments and is budgeting the receipt of \$202,160 in subsidy income direct from the federal government on federally subsidized debt as described below.

- Series 2009C are Taxable Build America Bonds – Direct Pay with a 35 percent interest rate subsidy.
- Series 2010A are Qualified School Construction Bonds with a 96 percent interest rate subsidy.

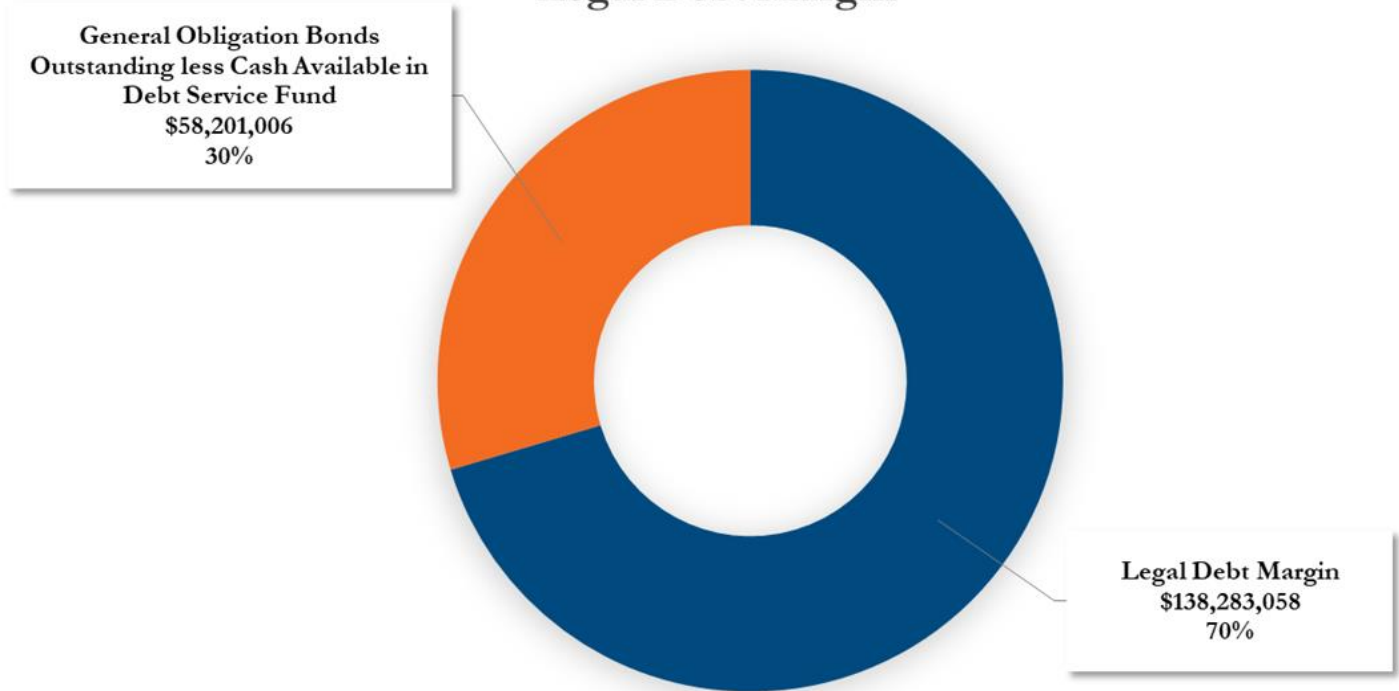

General Obligation Bonds Outstanding

Issue Date	Maturity Date	Rate of Interest	Original Issue Amount	Balance as of June 30, 2019
10/14/09	03/01/24	1.37%	\$9,185,000	\$9,185,000
11/03/09	03/01/21	0.80%-4.75%	10,720,000	3,195,000
09/08/10	03/01/27	4.70%	3,987,000	3,987,000
09/28/10	03/01/30	4.70%-5.00%	16,205,000	16,205,000
09/28/10	03/01/28	3.90%-4.70%	16,270,000	16,270,000
12/27/17	3/1/29	4.00%-5.00%	23,465,000	20,210,000
				\$69,052,000

On November 13, 2019, the Board of Education approved a resolution authorizing and directing the issuance, sale and delivery of \$31,075,000 general obligation refunding bonds, Series 2019. The issues refunded were 2010B and 2010C, both Taxable General Obligation Build America Bonds – Direct Pay. The new series has a maturity date of September 1, 2029 and an average coupon of 2.73 percent. The refunding resulted in a net present value savings of \$2.3 million.

Article VI, Section 26(b), of the Constitution of Missouri, limits the outstanding amount of authorized General Obligation Bonds of the District to 15 percent of the assessed valuation of a district. The approximate assessed value of taxable properties within the District boundaries is \$1.309 billion. This results in the District’s constitutional debt limit being approximately \$196 million. After deducting the amount of outstanding debt and adding back the cash available in the Debt Service Fund, this results in a \$138 million legal debt margin.

Legal Debt Margin

Fund Balance

The fiscal year, as determined by Board Policy DBB, is inconsistent with the school year. Both are inconsistent with the tax year.

Fiscal Year:	July through June
School Year:	August through June
Tax Year:	January through December

Essentially, the District receives one large paycheck per year. Although tax revenues in smaller amounts are received by the District throughout the year, the bulk of the revenue arrives in late December and early January. These revenues are generated by local property taxes, which are collected in the fall and distributed to school districts by the County Collector. The Board of Education must set aside money to pay District bills for the balance of the fiscal year (January-June) and for the first six months of the next fiscal year (July-December). As a budget for the following year is being created in the winter months, the Board must work with the actual amount of tax revenue received in January and estimate the amount that will be collected some 11-12 months later.

The Board must, therefore, project its expenses far into the future. For example, when an official tax levy is established in September of one year, the taxes are not actually received by the District for six months, but must support the District until taxes are distributed again some 18 months later! Put graphically, here are the ABC's of school taxes:

A	B	C	D
July 2020	December 2020	January 2021	January 2021-December 2021
Begin Fiscal Year September 2020 tax levy set	Taxes collected by County Collector	District receives local taxes (79% of total income)	District operates on taxes collected and fund balances
18 Months			

If tax receipts in January are lower than estimated, it will be more difficult for the District to pay all of its operating expenses for the next 12 months. If new families move into Clayton over the summer months and additional children appear at school in September, additional faculty may have to be hired. If unexpected building repairs are needed, scheduled maintenance may have to be delayed.

In setting a tax levy that will provide the money to support the budget, the District takes several steps.

- *First*, financial planning is of prime importance. Annual costs for teachers' salaries, building operations, and instructional materials are carefully analyzed. The District's Chief Financial Officer carefully monitors projected increases in assessed valuation, the rate of tax collection, and political actions that may have an impact upon the District's financial future.
- *Second*, in building the budget, the Board sets aside contingency monies in each of the three operational funds: Special Revenue, General, and Capital Projects. (As stated earlier, the Debt Service Fund is predictable.) For example, the District could experience unpredicted increases in enrollment that would make it necessary to hire additional teaching staff and purchase additional instructional supplies. Contingency money could be used to meet these unanticipated expenditures.
- *Third*, fund balances—money from each fund not spent during a budget year—is placed in a reserve fund. The Board may draw upon this fund—just as a citizen will draw upon a savings account—if the need arises. Because this revenue has been collected through a voter-approved tax levy or represents other revenue, such as interest income derived from invested tax revenue, no additional vote of the people need be taken in order to use it.

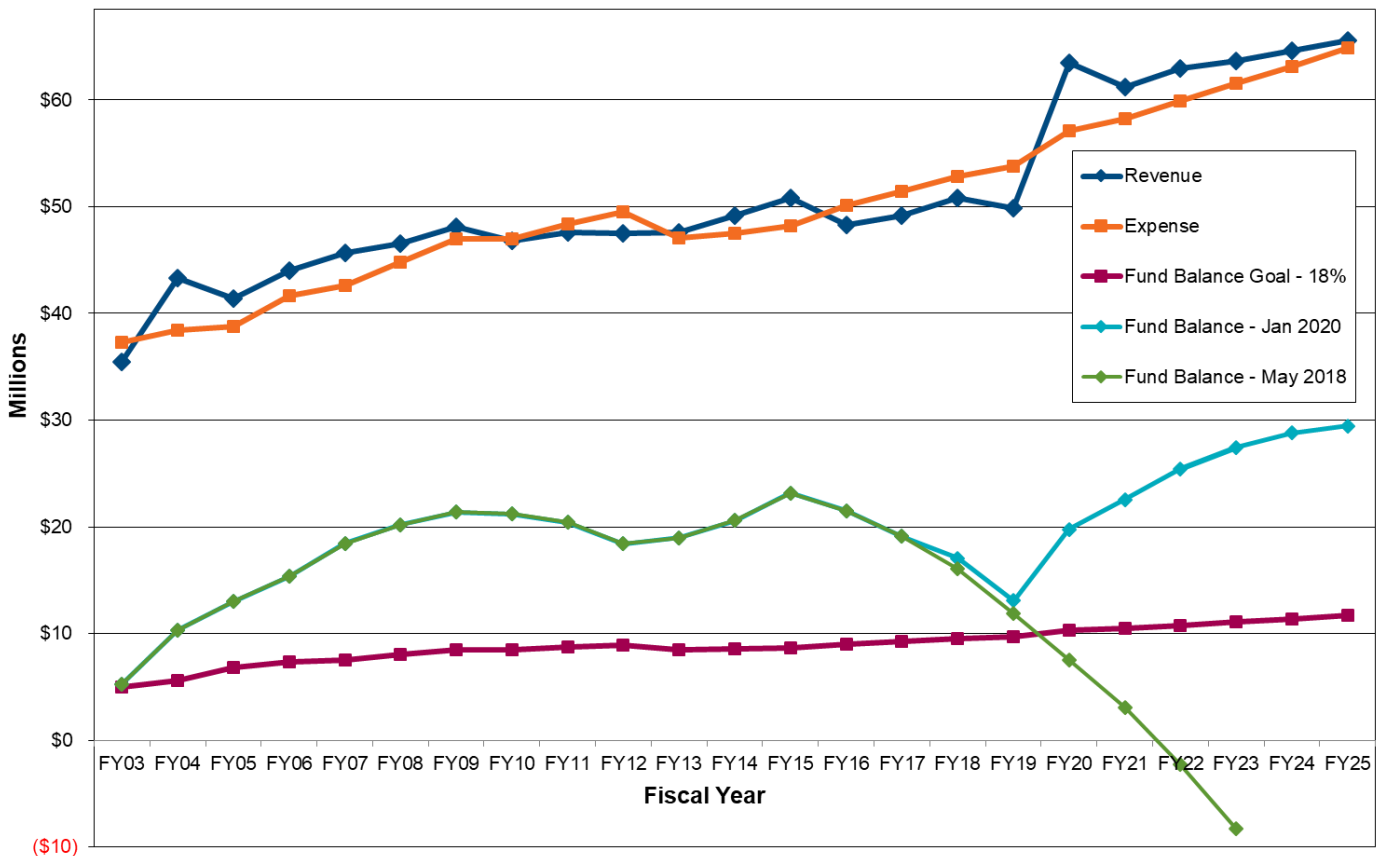

For Clayton, fund balances serve another important purpose. Since the District receives most of its tax revenue in late December and early January, but the fiscal year ends June 30, money must be set aside in the reserve fund to meet District expenses—such as payroll—from July through December. Experience has shown that a minimum fund balance of 18 percent of the expenditure budget must be maintained to prevent the necessity of borrowing money to meet District expenses during the fall months.

Proposition E was placed on the ballot because the District was prudently spending down operating reserves over several years. During this time, the District made reductions in expenditures with the goal of continuing to align District resources with our priorities but also protect what matters most: our instructional core. While administration reduced expenditures and made permanent changes to staffing and programs, it was done in a way that protected the instructional core and prioritized organizational and operational impacts in order to minimize the direct impact on students and their learning. Due to the successful passing of Proposition E, the District projects approximately a \$2.8 million operating surplus and growing the fund balance to approximately 40 percent, which exceeds the 18 percent fund balance goal.

Historical revenues, expenses and fund balance from the last tax levy (2003) and projected for the next five years are presented below.

School District of Clayton Projected Revenues, Expenses, & Fund Balance

Reporting

Every district within the state of Missouri is required to file a yearly financial summary report with DESE by August 15 of each year entitled the Annual Secretary of the Board Report (ASBR). The District submits this report for all governmental funds on the cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles (GAAP). The cash basis is used to enable the District to more accurately compare itself to other districts since the majority of the districts within the state of Missouri report on the cash basis of accounting.

In accordance with RSMo 165.121 and Board Policy DIE, every district within the state of Missouri is required to file audited financial statements with DESE by December 31 of each year. The auditor's management letter and a copy of the Board minutes indicating approval of the audit report must also be submitted to DESE. The District's audited financial statements are prepared and audited in accordance with GAAP.

Prior Year Total Expenditures

FOR INFORMATION ONLY

Due to the complete reconfiguration of the Missouri Public School Accounting System mandated by the Missouri Department of Elementary and Secondary Education (DESE) and implemented by the District as of July 1, 2018, it is extremely difficult to create an account-by-account analysis by function and object of the prior year expense accounts for the purposes of this document. Accounts have been separated by DESE into multiple accounts, combined with portions of other accounts, new accounts have been added and some accounts have been deleted. A single report comparing prior year's expenses will be reinstated when an account to account comparison is available.

Prior Year Operating Expenditures

FOR INFORMATION ONLY

Due to the complete reconfiguration of the Missouri Public School Accounting System mandated by the Missouri Department of Elementary and Secondary Education (DESE) and implemented by the District as of July 1, 2018, it is extremely difficult to create an account-by-account analysis by function and object of the prior year expense accounts for the purposes of this document. Accounts have been separated by DESE into multiple accounts, combined with portions of other accounts, new accounts have been added and some accounts have been deleted. A single report comparing prior year's expenses will be reinstated when an account to account comparison is available.

Glossary

GLOSSARY OF TERMS

This glossary contains definitions of terms used in this budget and such additional terms as deemed necessary to common understandings concerning financial accounting procedures. Several terms, which are not primarily financial accounting terms, have been included because of their significance for school financial accounting. The glossary is arranged alphabetically.

ACCOUNTING SYSTEM - The total structure of records and procedures which discover, record, classify, and report information on the financial position and operations of a school district or any of its funds, and organizational components.

ADA – Average daily attendance of students. Calculated by dividing total actual hours of attendance of all students by the amount of scheduled hours (or possible hours) for the term.

AP – Advanced Placement – courses designed to aid the high school student who excels in regular class curriculum and intends to attend a college or university.

ASSESS - To value property officially for the purpose of taxation.

ASSESSED VALUATION - A valuation set upon real estate or personal property by a government as a basis for levying taxes. In Missouri, the assessed value is a percentage of the appraised value as follows: residential - 19%, personal property - 33 1/3%, Commercial - 32%.

BALANCE SHEET – A summarized statement, as of a given date, of the financial position of a local education agency per fund and/or all funds combined showing assets, liabilities, reserves, and fund balance and changes in fund balance.

BOND – A written promise, generally under seal, to pay a specific sum of money, called the face value, at a fixed time in the future, called the date of maturity and carrying interest at a fixed rate, usually payable periodically.

BONDS PAYABLE - The face value of bonds issued and unpaid.

BUDGET – A plan of financial operation embodying an estimate of proposed expenditures for a given period or purpose and the proposed means financing those expenditures.

BUDGETARY CONTROL – The control or management of the business affairs of the school district in accordance with an approved budget with a responsibility to keep expenditures within the authorized amounts.

CAPITAL PROJECTS FUND – Expenditures such as building renovations and construction, equipment and furniture that result in the acquisition of or addition to fixed assets are paid from this fund.

CENTER OF CLAYTON – See **CRSWC**

CIP – Capital Improvement Plan – A plan of proposed capital outlays and the means of financing them for the current fiscal period. It is part of the current operating budget.

CLASSROOM TRUST FUND – This is a state formula category for the gaming money paid to the districts through the formula.

COLLECTION RATE – A ratio that calculates the difference between property tax revenue received and the property tax charged. For budgeting, the District uses a 96% collection rate based on historical collection rates.

CONTRACTED SERVICES – Labor, material and other costs for services rendered by personnel who are not on the payroll of the local education agency.

COST PER PUPIL – See **EXPENDITURES PER PUPIL**

CPI – Consumer Price Index – Used to track the change in the cost of consumer goods over a period of time – usually one year.

CRSWC – Clayton Recreation, Sports and Wellness Commission, Inc. – A not-for-profit organization, which provides a shared use facility called the Center of Clayton to address the athletic and educational needs of the community.

CSIP – Continuing School Improvement Program – model which provides the framework for staff development to be aligned with the intended, taught and assessed curriculum as well as with the goals of the Board of Education.

CURRENT PROPERTY TAXES – Current calendar year tax payments received during the current fiscal year.

DEBT – An obligation resulting from the borrowing of money or from the purchase of goods and services. Debts of local education agencies include bonds, warrants and notes, etc.

DEBT LIMIT – The maximum amount or gross or net debt that is legally permitted. (15% of assessed valuation for school districts in Missouri.)

DEBT SERVICE FUND – Monies in this fund are used for the retirement of debt and expenditures for the interest on debt issued to finance school renovations or new construction. (Funds must be segregated.) When the voters approve a bond issue, they authorize the Board of Education to set a tax rate in the Debt Service Fund that will meet the principle and interest payments due each fiscal year.

DECA – Distributive Education Clubs of America – An international association of high school and college students and teachers of marketing, management and entrepreneurship in business, finance, hospitality, and marketing sales and service.

DECISION UNIT – A decision making group of staff that can be made up of representatives from grade levels, subject areas, programs and departments that develop and prioritize budget requests.

DELINQUENT PROPERTY TAXES – Prior year tax amounts due and received in the current fiscal year. This is also where refunds of prior year property tax disputes settled in favor of the taxpayer are charged against.

DISTRICT LEADERSHIP COUNCIL – A decision making group comprised of executive administrative staff and building administrative staff.

ECSE – Early Childhood Special Education – A state and federally funded program designed to target pre-Kindergarten children who are identified as having special needs.

ELEMENTARY SCHOOL – A school classified as elementary by state and local practice and composed of any span of grades not above grade six (Kindergarten through 5th grade). This term includes kindergartens if they are under the control of the local school board of education.

ENCUMBRANCE ACCOUNTING – A system or procedure which involves giving recognition in the accounting budgetary expenditure control records for the issuance of purchase orders, statements, or other commitments chargeable to an appropriation in advance of any liability or payment.

ENCUMBRANCES – Purchase orders, contracts, and/or other commitments which are chargeable to an appropriation and for which a part of the appropriation is reserved. They cease to be encumbrances when paid, as in accounts payable, or when the actual liability is established or when cancelled.

EQUIPMENT – See **FIXED ASSET**

EXPENDITURES – Total charges incurred, whether paid or unpaid, for current costs, capital outlay, and debt service. (Transfers between funds, encumbrances of cash for other current assets such as the purchase of investments in U. S. bonds and payments of cash in settlement of liabilities already accounted as expenditures.)

EXPENDITURES PER PUPIL – Expenditures for a given period of time divided by pupil unit of measure.

FISCAL YEAR – Annual period at the end of which a local education agency determines its financial position and the results of its operations. The District's fiscal year begins on July 1 and runs through June 30 of each year.

FIXED ASSET – Those moveable items used for school operation that are of a non-expendable and mechanical nature, i.e. perform an operation. Computers, printers, smartboards, projectors, vacuum cleaners, lathes, clocks, machinery, and vehicles, etc. are classified as equipment. (Heating and air conditioning systems, lighting fixtures and similar items permanently fixed to or within a building are considered as part of the building).

FTE – Full Time Equivalent - one FTE is equivalent to one employee working full-time.

FUNCTION – As applied to expenditures, this term has reference to an activity or services aimed at accomplishing a certain purpose; for example, instruction, administration, or operation and maintenance of plant.

FUND – A sum of money or other resources set aside for specific activities of a district. The fund accounts constitute a complete entity and all of the financial transactions for the particular fund are recorded in them. Funds required by the State of Missouri are the general, teachers, capital and debt service.

FUND BALANCE – The excess of assets of a fund over its liabilities and reserves. During the fiscal year prior to closing, it represents the excess of the fund's assets and estimated revenues for the period over its liabilities, reserves and appropriations for the period.

GENERAL FUND – The fund used to finance the ordinary operations of the local education agency. It is available for a legally authorized purpose and consists of money not specifically designated for some other particular purpose.

HIGH SCHOOL – A school offering the final years of high school work necessary for graduation; preceded by a junior high school or middle school in the same system.

INSTRUCTION – The activities dealing directly with the teaching of students or improving the quality of teaching.

LEA – Local Educational Agency – School District.

LEGAL DEBT MARGIN – The difference between the District's actual debt and the allowed amount is known as the debt margin, which is calculated by subtracting the net debt from the debt limit.

LEVY – (Verb) to impose taxes or special assessments. (Noun) The total of taxes or special assessments imposed by a governmental unit.

LTFP – Long-Term Financial Planning Committee – The Long-Term Financial Planning Committee purpose is to understand school district finances in order to monitor financial issues and trends facing the District and provide advice to the District administration and the Board of Education regarding those issues and trends.

M & M – Merchants and Manufacturers Tax – A surcharge on commercial real estate imposed by RSMo 139.600. The statute established the formula to determine the tax rate of the "Commercial Surcharge" for each County. The tax rate for the "Commercial Surcharge" in Saint Louis County is \$1.70 per \$100 of assessed valuation. The tax rate may not be increased and may only be decreased if approved by a majority of the voters of that County.

MIDDLE SCHOOL – A school offering education to students spanning both elementary and secondary levels, normally 6th through 8th grades.

OBJECT – As applied to expenditures, this term has reference to the classification of goods or services received; for example, salaries, benefits, purchased and contracted services, and supplies.

PAT – Parents As Teachers – Preschool child focused program utilizing parents as teachers under the guidance of trained professional staff members.

PDC – Professional Development Committee – Serving the employees of the District to plan activities and provide support for professional growth.

READING RECOVERY – A highly effective short-term intervention of one-to-one tutoring for low-achieving first graders.

SB287 – Senate Bill 287 – A Missouri State Education Foundation Formula law passed in April, 2005. The bill revised the state aid formula that distributes funding to Missouri public school districts. The previous state formula was essentially a tax-rate formula. SB287 seeks to move away from this tax-rate driven philosophy to a formula that is primarily student-needs based.

SPECIAL REVENUE (TEACHERS') FUND – The salaries and employee health and retirement benefits of certificated teachers, aids and administrators are paid from this fund.

SSD – Special School District – A separate and independent school district which serves the needs of students with special requirements for all of the school districts in St. Louis County. SSD teachers occupy the teaching stations of the LEA to serve the students of that school. Placement options range from consultative to a totally inclusive setting. SSD also runs the Vocational Training Program for the districts of St. Louis County.

STATE ADEQUACY TARGET – An amount of expenditure per student that is the base for the new Foundation Formula put into law by SB287. The adequacy target is the amount per year spent by certain high performing districts in the state and is subject to change every two years.

SUMMER SCHOOL – The name applied to the school session carried on during the period between the end of regular school term and the beginning of the next regular school term.

SUPPLY - A material item of an expendable nature that is consumed, worn out, or deteriorated in use; or one that loses its identity through fabrication or incorporation into a different or more complex unit or substance.

TAX RATE – The tax rate legally approved by patrons of a political subdivision that charges a rate per \$100 of assessed valuation in order to compute the property tax of a political subdivision. The District has two tax rates: one for operations and the other to pay the ongoing debt and interest payments.

TAXES – Compulsory charges levied by a governmental unit for the purpose of financing services performed for the common benefit.

TIP – Technology Improvement Plan – A plan of proposed capital outlays for technology and the means of financing them for the current fiscal period. It is part of the current operating budget.

VICC – Voluntary Interdistrict Choice Corporation – A non-profit entity formed to collect and administer state funds to support the VTS (Voluntary Transfer Students) who choose to attend a district other than the student district of residence (the City of St. Louis School District). LEA's receive funds based upon a preapproved reimbursement rate multiplied by the ADA of the participating students.

VTS – Voluntary Transfer Students – Students from St. Louis City School Districts (See VICC)

WADA – Weighted Average Daily Attendance – The current basis for distribution within the new Foundation Formula calculations as introduced by SB287. The ADA is weighted for specific student characteristics, specifically, free and reduced-price lunch (poverty) special education needs or limited English language proficiency.

ZBB – Zero-Based Budgeting – Requires the budget be built starting from the zero-base, and every line must be justified.
